RETI Resilient Energy Technology & Infrastructure
NSF Engines Awardee

FALL 2026 · THIRD THURSDAYS

Seminar Series

Leading voices on grid reliability, security, and the future of energy infrastructure.

OCT 15

Ben Kroposki, Ph.D.

Director, Power Systems Engineering Center

National Lab of the Rockies

Grid-Forming Inverters for Improved Reliability

NOV 19

Greg Shannon, Ph.D.

Chief Cybersecurity Scientist

Idaho National Laboratory

Challenges and Opportunities to Ensure Critical Components and Dynamics in Operational Energy Systems

DEC 17

Darlene J. Phillips

Executive Director, Operations Engineering Support

PJM Interconnection

Operational and Engineering Challenges for the Power Grid

TIME: 12:00 PM ET (NOON) · **LOCATION:** VIRTUAL — ZOOM LINK SENT AFTER YOU REGISTER

REGISTER · FREE, OPEN TO ALL
