

Anthony Iannacchione, PhD, P.E., P.G.

Anthony Iannacchione is an associate professor at the University of Pittsburgh. Prior to this appointment in 2008, he worked for the U.S. Bureau of Mines and National Institute for Occupational Safety and Health. His educational background is split between civil engineering, mining engineering and geology and is a registered professional engineering and geologist in the Commonwealth of Pennsylvania. Dr. Iannacchione's research interest includes assessing the surface impacts caused by longwall mining subsidence and designing underground facilities with minimal risk of environmental or workplace harm.
